

Nano Brokerage Event Prague 2009

The event is focused on companies, technology centres, research and development institutes, research laboratories, universities and private researchers offering innovative technologies and know-how, looking for technological solutions or searching for partners for the European R&D projects.

The interested persons will register and submit their technology profile (technology offer/request or partner search) to online catalogue.

Registered participants will have the opportunity to choose their partners for the meetings from the catalogue. The organisers will prepare individual meeting schedule for each participant and ensure the logistics of the event.

Nano Brokerage Event Prague 2009

Business Support on Your Doorstep

International brokerage event within the conference EuroNanoForum 2009

4th June 2009

Prague Congress Centre • Czech Republic

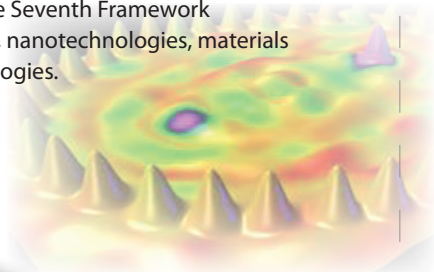

EU2009.CZ

EuroNanoForum 2009 - the biggest European conference in the sector of nanotechnologies co-organised by European Commission within the framework of Czech Presidency of the European Union takes place from 2nd to 5th June 2009 in the Prague Congress Centre.

The EuroNanoForum 2009 is focusing on the relevance of nanotechnologies for sustainable economy, especially their application in eco&energy efficient industrial production, environment protection and energetics.

One part of the conference accompanying programme is **Nano Brokerage Event Prague 2009**. The goal of this one-day event is to find partners for international cooperation in research and development.

The Nano Brokerage Event Prague 2009 is organised by Business and Innovation Centre Plzen in cooperation with the Technology Centre of the Academy of Science of the Czech Republic as an event of the Enterprise Europe Network with the support of the sector group Micro&Nanotechnologies of this network and National Contact Point Network of the Seventh Framework Programme in nanosciences, nanotechnologies, materials and new production technologies.

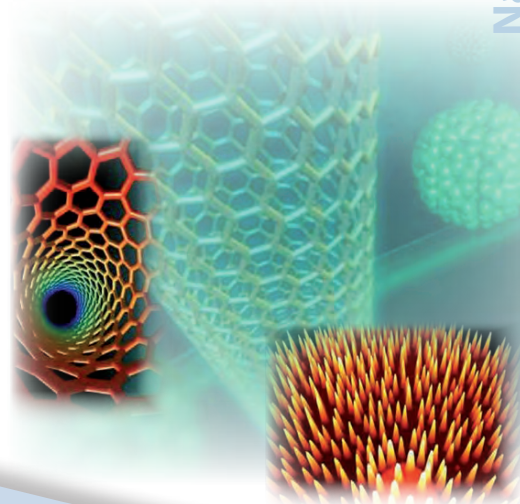

Nano Brokerage Event Prague 2009

The event offers unique opportunity to

- present your know-how and innovative technologies to foreign partners
- inspire yourself by new ideas and technological applications
- start the technological cooperation in R&D
- find new opportunities for entering new markets
- meet new potential business partners
- carry partners for collaborative European R&D projects

The brokerage event covers following topics:

- Nanotechnologies for chemistry
- Nanomaterials for energy
- Nanotechnologies for health
- Nanotechnologies for environment and water treatment
- Nanomanufacturing and industrial technologies
